

FEDERAL CIVIL SERVICE DENTAL CAREERS

HELP OTHERS • SERVE YOUR COUNTRY • PRACTICE YOUR SPECIALTY

No other oral health care organization can match the opportunities and professional experience that you will gain within the U.S. Army Dental Command (DENCOM).

DENCOM is among the largest and most advanced dental systems in the world. As a civilian dentist you'll spend time doing what you care about most — directly treating patients. You won't have to worry about maintaining a practice, retaining a patient base, hiring staff or purchasing equipment because you'll already be part of one of the world's best dental networks.

You will work with other dedicated dental professionals who are peers – not competitors – and have access to cutting edge technology, state-of-the art equipment and board-certified specialists to consult with. In addition, you'll have opportunities to participate in continuing education and potentially assist with leading edge research.

Our dentists receive a generous salary and benefits package along with the security and stability of being a federal civil service employee. Civilian dentists are not subject to requirements such as “boot camp”, military uniforms or mandatory relocation.

Exceptional opportunities are currently available for general dentists, comprehensive dentists, oral surgeons, prosthodontists, endodontists, periodontists and orthodontists. For additional information visit our web site or call the number below.
